Art. 6 Exclusion

Candidates are admitted to the selection procedure under reserve.

The exclusion due to the lack of one of the requirements set out in this announcement can be decided, at any time during the procedure, by a duly motivated Decree, issued by the Rector and notified to the interested party by PEC or by registered letter with return receipt for foreign candidates.

Art. 7 Selection Committee

The Selection Committee is appointed according to art. 7 of the *“Regulation for the recruitment of researchers with a fixed-term contract within and for the execution of projects of the National Recovery and Resilience Plan (NRRP) and the National Plan for Complementary Investments to the NRRP (CNP)”* issued by the University of Palermo.

The designation decree is published on the University Official Register.

Candidates can ask for one or more of the committee members to recuse, under art. 51 and 52 of the Code of Civil Procedure, by sending their request to the Rector within thirty days from the day after the publication on the University Official Register of the Rector's Decree by which the Committee is appointed. Should a reason to recuse arise after the aforementioned time limit, but before the Committee has taken office, the deadline starts from the moment that the reason to recuse arose. The petitioner's procedure is not allowed anymore when the mentioned deadline has passed and, in any case, after the setting-up of the selection Committee. If all the candidates declare that there are no grounds for recusal, the deadline referred to in the first period ceases to run in advance and the Committee can start work. The procedures will be carried out entirely electronically.

Art. 8 **Selection Committee's fulfilments**

During the first meeting, the Committee:

- will appoint the President and the Secretary for the minutes;
- will enter in the minutes a declaration, released by each of its members, stating the nonexistence of the causes of abstention pursuant to arts. 51 and 52 of the Italian Code of Civil Procedure;
- will establish the criteria for the preliminary evaluation of the candidates (Ministerial Decree 25.05.2011 no. 243);
- will establish the criteria for the evaluation of the qualifications and publications of the candidates.

At the end of the first meeting, the minutes containing the assessment criteria and schemes is delivered to the person in charge of the procedure in order to ensure the required publicity on the University's Official Register, at least for seven days, before the next selection Committee section.

Pursuant to paragraph 2 letter c) of the art. 24 - Law no. 240/2010, the selection procedure will foresee a first preliminary evaluation of the candidates, with a motivated analytical assessment of the qualifications, curriculum and scientific production, including the PhD dissertation, according to criteria and parameters recognized also in the international context and identified with the Ministerial Decree n. 243/2011 as per the following art. 9 of this announcement. In this case, the list of those admitted will be notified, before the scheduled date for discussion, by means of a notice that will be published in the Official University Register and on the University website at the page: <http://bit.ly/ricercatoriTD>.

After the preliminary assessment, the most deserving candidates are admitted to the public discussion of qualifications and scientific production, as well as to the oral exam aimed at ascertaining the knowledge of the foreign language required by the call. A number between 10% and 20% of candidates and in any case not less than six units will be admitted.

If the number of the applicants is equal to or less than six, all of them will be admitted to the public discussion. In this case, the Commission proceeds to examine the qualifications and publications without expressing any opinion.

The acts of the selection procedure consist of the minutes of the meetings and the final report about the works carried out by the Committee. The decisions expressed for each candidate during the preliminary assessment, as well as the evaluation of qualifications and publications of the candidates admitted to the public discussion, are integral and necessary parts of the minutes.

The Committee gives an overall assessment mainly taking into account the evaluations of the publications.

At the end of the work, the Committee approves a merit ranking, with a final resolution approved by the majority of its members.

Should the first-ranked candidate not accept, resign, or cease, it will be possible to continue down the candidates' ranked list.

Within the selection procedures for each Academic Recruitment Field, in case of equal merit, a female candidate prevails over a male candidate, at least until the achievement of any percentage constraints prescribed by the project funding notices. In other cases, in case of equal merit, a younger candidate prevails over an older candidate.

The same criteria also apply in the event of proceeding down the candidates' ranked list.

The merit ranking refers to each Academic Recruitment Field and Academic Discipline and remains effective for the entire implementation period of the NRRP and the CNP, including any extensions, without prejudice to the possibility of issuing an announcement of selection for positions within the same Academic Discipline for projects or resources different from those of the procedure with a valid ranking list.

In the event of multiple positions for the same Academic Recruitment Field and Academic Discipline, each position is assigned considering the preference expressed by the candidates according to the merit ranking.

Art. 9

Qualifications and curriculum assessment

The preliminary evaluation of the candidates, with a motivated analytical assessment of the qualifications, curriculum and scientific production, including the PhD dissertation, is carried out before the public discussion and the oral exam, according to the criteria as per art. 2 of the Ministerial Decree 25.05.2011 n. 243.

The selection Committees carry out a motivated assessment, followed by a comparative evaluation, referring to the specific competition sector and to the possible profile defined exclusively through the indication of one or more scientific disciplinary sectors, the curriculum and the following qualifications of the candidates, duly documented:

Art. 10

Scientific production assessment

The selection Committee, during the preliminary comparative evaluation of the candidates, takes into consideration only publications or texts accepted for publication according to the regulations in force, as well as essays included in collective works and articles published in journals, in paper or digital format, with the exclusion of internal notes or departmental reports.

The PhD dissertation or equivalent qualifications are taken into consideration, even if in the absence of the conditions referred to in this paragraph.

The selection committee carries out the comparative evaluation of the publications on the basis of the following criteria:

- a) originality, innovativeness, methodological rigor and relevance of each scientific publication;
- b) congruence of each publication to the competition sector where the procedure is announced and with the possible profile, defined exclusively by indicating one or more scientific-disciplinary sectors, or with related interdisciplinary topics;
- c) scientific relevance of the editorial location of each publication and its dissemination within the scientific community;
- d) analytical determination, also on the basis of recognized criteria in the international scientific community of reference, of the individual contribution of the candidate in the event of their participation in collaborative works.

The selection committee must also evaluate the overall quality of the candidate's scientific production, its strength/quantity and temporal continuity, apart from the period of non-voluntary removal from the research's activity, if explained enough, and in particular in relation to the parental leave/maternity leave.

With regard to the competition sectors, as internationally recognized, the commissions, in evaluating the publications, also apply the following parameters/indicators, within the application deadline terms:

- c) "impact factor" total weight;
- d) average "impact factor" per publication;
- e) combinations of the previous parameters to enhance the impact of the candidate's scientific production (Hirsch index or similar).

Art. 11

Oral exam and public discussion of qualifications and scientific production

Following the aforementioned preliminary assessment and the consequent admission of the most deserving candidates or all of them, in the event that the candidates are equal to or less than 6, the Commission proceeds to the public discussion of the qualifications and the scientific production and to the simultaneous carrying out of the oral exam, aimed at ascertaining adequate knowledge of the expected foreign language. The oral exam is public.

The day, the location, and the time of the test will be communicated through a notice that will be published in the Official University Register and on the University website at the page: <http://bit.ly/ricercatoriTD>.

The publication of the aforementioned notices to the Official University Register will have the value of notification for all participants in the selection, without the obligation of any further communication.

The University assumes no responsibility for the failure to read the notices and, in any case, it will be the responsibility of the candidates to keep themselves informed by consulting the Official University Register and the University website at the page: <http://bit.ly/ricercatoriTD> to find information on selections.

Following the discussion, the Commission assigns a score to the qualifications and to each of the publications presented by the candidates admitted to the discussion, according to the criteria already indicated in art. n. 8 and 9 and established in the minutes n. 1.

The Commission, in assigning scores to qualifications and to each of the publications, is required to reserve for publications no less than 70% of the maximum score.

Candidates must show one of the following valid identification documents for joining the oral exam:

- ID card;

- firearms license;
- driving license;
- boat license;

Art. 12

Verification of procedures' regularity

The Rector, with his own decree, having ascertained the regularity of the documents, approves them, as well as the merit ranking and declares the name of the winning candidate. The conditions, facts and personal qualities self-certified by the winning candidate are subject to checks by the University to verify their truthfulness, also on a random basis.

The Decree will be sent to all applicants and to the Department in charge of that position. The Decree will be also published on the Official Register of the University and on the University website.

Should the Rector notice an irregularity, upon due justification, the documentation might be resent to the Committee for it to be regularized within the deadline established by the Rector.
