

## TRAINING COURSE PROVIDE IN JAÉN, SPAIN

### **Description:**

The training course in Spain have being developed through the University of Jaén. We have offered a postgraduate diploma (official title) entitled “Expert on Violence of Proximity”. This diploma is recognized with 5 ECTS. This course was offered to practitioner/worker on public-private institutions related to migrations. The objective: to provide to social operators (the “students”) an official titled in order to add value to Provide’s course. In order to get a backup from UJA to the Provide.

To transform the Provide course to a postgraduate diploma, we applied (on December 2018) to a public process in UJA. This application passed the different evaluation process in UJA. Finally, it was approved in Consejo de Gobierno (Government Council at UJA).

### **Web page of Provide’s training course at UJA:**

This is the web page in UJA to the Provide’s courses. Two editions. You can find additional information about this course in this link:

<https://www.ujaen.es/estudios/oferta-academica/titulos-propios/diplomas-de-postgrado/diploma-de-postgrado-expertoa-en-gestion-de-la-violencia-de>

In addition, we disseminate the information about these courses through the web page.

### **Brochure and Informative poster:**

Teachers and students were provided for a user and password to access to this space.

This space is organized in different folders:

- information about Provide project and Violence on Proximity concept
- 5 folders related to information provided by teachers of each Module
- Pictures
- Addition information related to VP provided by operators involved as students in both courses

Selection process: we selected 40 people for each course. Initially the number of students to select was 33 per each course, however, due to the high demand and relevance of professional profiles, we increase the number of students.

Finally, 73 students enrolled in the course, of which 34 students attend to the first course and 38 will attend to the second course.

Every day students sign on a signature sheet at the beginning and the end of the class.

Moreover, the first day, students fill out the questionnaire pre, and the last day they will fill out the quest for the training evaluation.

**Profile of social operators (students enrolled):**

About professional profiles of our students, the next table show a summary, based on the first question of questionnaire pre.

In addition, we attach a excel sheet, where you can see more detailed the professional profiles of our students. (Name File: Students' Professionals Profiles)

**Evaluation**

In order to achieve the 5ECTS of postgraduate diploma, the students have to attendance to the in person classes, and they have to submit a written paper related to theoretical and practical items of Provide’s course. The objective is to make them to write about how do they detect VP in their services and how, after this course, can they improve their programs including the content of VP.

This document has to be submitted after two months of the end of the course. After it, they will get the UJA certification.

This material will be used by Spanish team as data for the provide project.

**Consent:**

We have elaborated a consent to allow us to record all sessions and photograph the courses. The students and teacher have sing it.
