

To: Prof. Salvatore Miccichè,
Coordinatore del Comitato Ordinatore,
Corso di Studi ad Orientamento Professionale in
Optica ed Optometria

Subject: Manifestation of interest for the creation of a B.Sc. curriculum in “Optics and Optometric”

With reference to your e-mail sent on November 13th 2018, as Chief Technology Officer (CTO) for PRP Optoelectronics, I hereby show my interest and willing support for the creation of the professionalizing B.Sc. degree in “Optics and Optometric” at the University of Palermo.

I truly believe is of extreme importance for the optic and optometry sector, to create new professionals trained at university level in our world of continuous technological and scientific evolution.

Furthermore I think it could be of particular interest for my firm all the aspects related to light path, optical component design and integration, lens use and design, light matter interaction.

Best Regards,
Dr. Giuseppe Buscemi
