

UNIVERSITY OF PALERMO, ITALY

International Research Doctorate in Environmental Agronomy
(<http://portale.unipa.it/dottoratiricerca/agronomiaambientale>)

Coordinator: Prof. Carmelo Dazzi

On **11th December 2012 at 11.00** at the Central Library of the Dept. of Agro-Environmental Systems , Faculty of Agronomy at the University of Palermo (Viale delle Scienze), a seminar will be held by **Dr. Geanina Bireescu** as part of the International Research Doctorate in **Environmental Agronomy**

SOIL IN THE ECOLOGICAL CONTEXT

Geanina Bireescu, is a Senior researcher at the NIRSBS Biological Research Institute in Romania. She is an expert in soil microbiology and environmental aspects concerning soil conservation and technologies. Dr Bireescu has a PhD in Agricultural Sciences and specializes in eco-pedological and pedo-biological studies concerning soil quality and the impact of technological measures on biological activity. She is author of over 70 scientific papers and many studies, and has been invited to speak in a number of international scientific events in this field of expertise.

Dr Bireescu is responsible for the International Research Doctorate which is taking place in collaboration between the University of Palermo and the University of Agricultural Science and Veterinary Medicine of Iasi, Romania.

Dr. Geanina Bireescu
