

Ciclo di seminari

# The brain on food: neuroepigenetics of nutrition

Dr. OLIVIA ENGMANN, PD, PhD

Neuroepigenetics Research Group | IMPULS Consortium  
Institute of Biochemistry and Biophysics  
Friedrich Schiller University, Jena, Germany

5 ottobre 2023 | 15:30 – 16:30 | Aula G – Complesso Didattico, via Parlavecchio 3

## BASICS OF EPIGENETICS

Structure and regulation of chromatin | RNAs and other epigenetic regulators

6 ottobre 2023 | 13:30 – 18:30 | Aula di Odontoiatria e Radiologia

## THE DIETARY ENVIRONMENT AND THE BRAIN EPIGENOME

Good fat, bad fat? Effects of poly-unsaturated fatty acids and high fat diet on the brain  
Time to eat. An interaction between circadian signaling and food via the epigenome  
From gut to brain and back again

9 ottobre 2023 | 08:00 – 11:00 | Aula Turchetti

## NEUROEPIGENETICS VULNERABILITY AND DIETARY RESCUE

Impact of the psychoactive dietary factors alcohol and caffeine on brain health  
One carbon-wheel of fortune: B-vitamins and their impact on mental illness  
The slim neuron: what intermittent fasting and red wine have in common
