Titolo brevetto: PLANT FOR WASTE DISPOSAL AND ASSOCIATED METHOD

Data deposito: 13/04/2015

N. Brevetto: Patent N: WO 2016/166650 A1

Abstract: Described herein is a plant for the disposal of waste including: -a supercritical water oxidation reactor (SCWO), a supercritical water gasification reactor (SCWG), a feeding system configured for feeding at least two organic currents of wastes to said supercritical water oxidation reactor and supercritical water gasification reactor, and configured for feeding at least one aqueous flow within said plant, wherein said feeding system is configured for feeding said at least aqueous current with a series flow through said supercritical water oxidation reactor and supercritical water gasification reactor....
